Room rate \$130 per night (plus taxes)  
Space is limited. Please make room reservations by  
June 26, 2009

## Seminar Director

Joseph B. Bikowski, MD  
Clinical Assistant Professor  
Ohio State University  
Director Bikowski Skin Care Center  
Sewickley, PA

Dr. Bikowski is the originator of the concept for this course. He completed his Dermatology residency at Ohio State University Hospital in 1978 and became a Diplomate of the American Board of Dermatology in the same year. This is the 29th year that Dr Bikowski has directed the Galderma Pre-board Slide Seminar. His enthusiastic dedication to updating the material each year to meet the changing needs of board-eligible dermatologists has made this the pre-eminent review seminar for board certification preparation.

## Course Objective

The fundamental aim of the Galderma Pre-Board Slide Seminar is to present an educationally valuable review of Dermatology. This is a preparatory seminar which approximates as closely as possible the format of the Kodachrome® segment of the Certifying Examination of the American Board of Dermatology.

The registrant will be exposed to over 750 projected images in a simulated exam environment with immediate review by the faculty members. In this way, the participants will be able to identify areas which might require further study. The seminar may also help alleviate "pre-test anxiety," thus allowing the registrant to perform at an optimum level of competence during the actual examination.

## Instruction Method

The review uses projected images depicting various dermatologic phenomena. Each of eight seminar segments will last 2-1/4 hours and will have 2 subsections.

During the first 45 minutes of each session, the registrant will take a simulated Board Exam consisting of approximately 60 images with one question per image. Each image will be projected on the screen for 45 seconds. The registrant must identify the subject of the image and answer a multiple choice question (printed test questionnaires are provided).

The faculty member will then review each image and accompanying question, answer questions and discuss differential diagnoses in the next 90 minutes. A study guide/syllabus with appropriate references for each question is provided for further review. Emphasis will be on recognizing dermatologic manifestations in an exam-like setting.

## **Withdrawals**

Tuition is refundable if withdrawals are made prior to June 26, 2009. After this date, tuition is non-refundable.

## **Information**

Galderma Laboratories, L.P.  
Attn: Pre-Board Slide Seminar  
14501 North Freeway  
Fort Worth, Texas 76177  
817.961.5130

## **Enrollment**

Enrollment is limited. Applications will be accepted in the order they are received.

## **Tuition**

- \$400.00 U.S. for board-eligible dermatologists and residents.
- \$500.00 U.S. for board-certified dermatologists. Tuition includes all course materials and meals indicated in the program schedule.

## **Registrant's Responsibilities**

Registrants are required to pay for their own transportation to and from the seminar, non-sponsored meals and hotel accommodations.

## **Registration**

9:00-10:00am, Friday, July 17, 2009  
Crowne Plaza Chicago O'Hare  
Registrants will receive a registration packet which covers the events of the weekend.

## **Course Sponsorship**

Galderma Laboratories, sponsor of the Pre-Board Seminar since 1980, has an ongoing commitment to dermatology.

In addition to educational program support, Galderma is dedicated to increasing the public's understanding of dermatology. Our sponsorship of the Pre-Board Slide Seminar is part of our commitment to you, the future of dermatology, and to our mutual growth.

---

## **EXAM 1 - HAIR, NAILS AND PIGMENTARY DISORDERS**

SYNOPSIS: This presentation will review the recognition and treatment of disorders of hair, nails, and pigment. These "clinical markers" will then be reviewed as aids in diagnosing underlying systemic abnormalities.

### **Richard K. Scher, MD, FAAD**

Professor of Clinical Dermatology  
University of North Carolina

---

## **EXAM 2 - PEDIATRIC DERMATOLOGY**

SYNOPSIS: Cutaneous diseases limited to pediatric patients and specific presentations of cutaneous disease in pediatric patients will be presented. Genodermatoses and correlation of clinical disease with current basic science information will be emphasized.

### **Susan J. Bayliss, MD, FAAD**

Professor of Dermatology & Pediatrics,  
Washington University School of Medicine and  
Director of Dermatology, St. Louis Children's Hospital

---

## **EXAM 3 - DRUG ACTIONS, INTERACTIONS, REACTIONS**

SYNOPSIS: In depth knowledge of drug actions, interactions and reactions is essential for a board certified dermatologist. The discussion will highlight modes of actions and uses of major topical and systemic agents, mechanisms and clinical presentations of major classes of drug reactions, and the pathways and clinical significance of systemic drug interactions.

### **Brian Berman, MD, PhD, FAAD**

Professor of Dermatology and Internal Medicine  
University of Miami Miller School of Medicine

---

## **EXAM 4 - REVIEW OF THE LITERATURE**

SYNOPSIS: The Board Examination typically emphasizes not only material from standard textbooks of dermatology, but also recent advances in diagnosis, pathogenesis and treatment. Both dermatologic and non-dermatologic literature will be reviewed.

### **Bruce Thiers, MD, FAAD**

Chairman, Department of Dermatology  
Medical University of South Carolina

---

### **EXAM 5 - CUTANEOUS ONCOLOGY AND SURGERY**

SYNOPSIS: The answer to questions concerning salient points of cutaneous surgery and the identification of frequently occurring cutaneous tumors will be covered as they are relevant to examination review.

#### **Marc Brown, MD, FAAD**

Professor of Dermatology and Oncology  
Univeristy of Rochester

---

### **EXAM 6 - BULLOUS DISEASES, BASEMENT MEMBRANES AND AUTOIMMUNITY**

SYNOPSIS: The discussion will focus on the morphologic, pathologic, immunologic and molecular features of bullous diseases, basement membranes and autoimmune disease. Current concepts of pathogenesis and mediators of pathogenesis will also be discussed.

#### **Jo-David Fine, MD, FAAD**

Professor of Medicine (Dermatology) & Pediatrics,  
Vanderbilt University School of Medicine Head,  
National Epidermolysis Bullosa Registry

---

### **EXAM 7 - JAAD CME ARTICLE REVIEW**

SYNOPSIS: The CME articles of the Journal of the American Academy of Dermatology attempt to provide an educational update on core knowledge in dermatology. They are an appropriate source of questions for Board Examination. These CME articles will be reviewed in this presentation.

#### **Steven R. Feldman, MD, PhD, FAAD**

Professor of Dermatology  
Pathology & Public Health Sciences  
Wake Forest University School of Medicine

---

### **EXAM 8 - INFECTIONS (BACTERIAL, VIRAL, FUNGAL) AND INFESTATIONS**

SYNOPSIS: Dermatological infections are a common problem for the clinician. A discussion of clinical diagnosis, appropriate laboratory confirming tests and therapy: gram stains, acid fast stains, and Fite stains will be presented.

#### **Sharon Jacob, MD, FAAD**

Assistant Clinical Professor Medicine (Dermatology)  
University of California, San Diego, CA
