

Galderma Announces Skincare Collaboration with Colorescience®

New joint promotion improves access to variety of daily skincare and injectable facial aesthetic treatments across the U.S.

Fort Worth, TX and Carlsbad, Calif., March 2, 2017 – Galderma, a global leader in medical solutions for skin health, is proud to announce a collaboration with Colorescience, the leading dermatologist-recommended skin health cosmetics line. This collaboration expands skincare solutions to individuals who seek innovative daily skincare products that can be used in conjunction with traditional facial injectable aesthetic treatments.

Galderma and Colorescience will provide first-in-class product offerings to aesthetic healthcare professionals and women looking for innovative skincare solutions. Research shows that there are currently 2 million U.S. women who regularly participate in the aesthetic injectables market, while approximately 17 million are considering aesthetic injectable treatment.¹ Additionally, approximately 34 million U.S. women purchase skincare products at their doctor's office annually.¹ This collaboration provides a significant opportunity to leverage the overlapping markets, providing exposure to the population interested in both. It will increase access to aesthetic facial injectables and protective makeup products to more cosmetic and dermatology practices.

"Galderma is pleased to offer our current and future customers the opportunity to receive not only innovative facial injectables, but topline skincare solutions as well," said Alisa Lask, Vice President, U.S. Marketing, Aesthetic & Corrective Business Unit, Galderma, U.S.

The marketing collaboration will include certain brands of Galderma's aesthetic facial injectables and some of Colorescience's most popular cosmetic and skincare products in the U.S. market. The Galderma and Colorescience collaboration will leverage both companies' consumer expertise and continued commitment to innovative skincare solutions.

"As a company dedicated to the creation of prestige skin health products that promote 365-day protection from UV rays and environmental stressors to enhance beauty without compromise, we're thrilled to partner with Galderma to offer products to healthcare professionals and women looking for health-forward skincare solutions," said Mary Fisher, President & Chief Executive Officer, Colorescience.

Through this new collaboration, the two companies will seek opportunities to leverage their combined consumer expertise and market growth strategies to benefit both healthcare professionals and consumers. This will include the industry-leading ASPIRE Galderma Rewards loyalty program (www.aspirerewards.com), and Lasting Beauty Rewards (www.colorescience.com/rewards).

About Galderma

Galderma, Nestlé Skin Health's medical solutions business, was created in 1981 and is now present in over 100 countries with an extensive product portfolio to treat a range of dermatological conditions. About Colorescience

For over 12 years Colorescience has been blurring the lines between makeup and skincare to bring immediate beauty today while improving and protecting skin for tomorrow. Originally crafted for the most vulnerable post-procedure skin, Colorescience is trusted, recommended, and personally used by thousands of physicians. Using only substantiated ingredients in their purest form, and including them at therapeutic and dermatologist-approved levels for maximum efficacy and performance, Colorescience products have already improved millions of lives with 365-day protection from UV rays and environmental stressors. The brand's uncompromising, health-forward approach to formulations provides confidence and reassurance to women of all ages, skin types and concerns. They understand the demands women face every day and realize the needs of today's consumer: ease, health, and beauty. Colorescience is changing the way women perceive beautiful skin; because beautiful isn't just the prettiest—it's the healthiest.

Colorescience is available through a network of licensed physicians, Colorescience.com, Sephora.com, ULTA.com and a collection of prestige online and brick-and-mortar retailers.
